PROGRAMME OVERVIEW

Whether you're dreaming of a career in design, planning to renovate your own home, or want to explore your creative side, this course gives you the confidence and knowledge to design interiors that are both functional and stylish.

WHAT YOU WILL LEARN

Your course contains 10 substantive modules/units. See an overview below:

- Explain the role of interior design and how design principles influence the creation of functional and aesthetically pleasing spaces.
- Use colour theory and lighting principles to create interior spaces that support the desired mood, function, and style.
- Apply the elements and principles of design to develop visually balanced and harmonious interior compositions.
- Design efficient and practical layouts by applying zoning, flow, and ergonomic principles.
- Select appropriate materials, textiles, and finishes based on design style and durability.
- Identify and interpret key interior design styles and adapt them to suit various client needs and space requirements.
- Create and present mood boards and visual concepts that clearly communicate design ideas.
- Use digital design software and AI tools to develop and present professional, client-ready design concepts.
- Plan a realistic interior design budget and source suitable materials and décor items.
