PROGRAMME OVERVIEW

Acquire essential skills for managing safety, compliance, operations, and quality within the construction industry. This practical course addresses legislation, planning, risk assessment, tendering procedures, and quality control, empowering you to confidently and safely manage projects.

WHAT YOU WILL LEARN

Your course contains 12 substantive modules/units. See an overview below:

- Explain the legal and regulatory framework for health and safety in construction.
- Develop and implement a compliant Safety, Health, and Environmental (SHE) Plan.
- Plan, organise, and maintain an effective construction site layout.
- Conduct and document a formal risk assessment for a construction site.
- Manage PPE, emergency procedures, and high-Risk activities safely and effectively.
- Prepare and evaluate tender documents, pricing, and contracts in construction.
- Apply quality management techniques to ensure safety, standards, and efficiency on-site.

ASSESSMENT INFO

Students must complete and submit various formative and summative assessments for each module. Refer to the Programme Guide on the Virtual Campus for information on assessments in this programme. The formative assessments contributes 40% to the final course mark, while the summative assessment contributes 60%. So the final pass mark for your course is 50%.
