## PROGRAMME OVERVIEW

This course builds essential risk management knowledge and practical skills. You will learn how to identify, assess, treat, and monitor risks in organisations, support compliance and governance, and apply ethical standards. It prepares you for entry-level roles and further study in risk or business management.

## PROGRAMME OVERVIEW

Your course contains 9 substantive units. By the end of the course, you will be able to:

- Explain the role and value of risk management.
- Apply recognised risk management frameworks.
- Identify and classify different risk types.
- Use practical tools and techniques to identify and record risks.
- Analyse and evaluate risks by assessing likelihood and impact.
- Develop and recommend basic risk treatment strategies.
- Contribute to risk monitoring and reporting.
- Analyse organisational risk case studies.
- Apply ethical, legal, and regulatory principles.

## ASSESSMENT INFO

Students must complete and submit various formative and summative assessments for each module. Refer to the Programme Guide on the Virtual Campus for information on assessments in this programme. The formative assessments contributes 40% to the final course mark, while the summative assessment contributes 60%. So the final pass mark for your course is 50%.
